

## Dancing Around The Souls Edge

Everyone comes to this planet with a set of friends, angels, family and perhaps pets to share the experiences they came to learn. We all have a Divine purpose inside us. It is there, lingering, growing, perhaps you are already living it but it is always there. Sometimes embracing it is easy, sometimes scary, often absolutely delightful. Finding YOUR purpose and listening to the guidance can be the tough part. After 13 years of listening, questioning the messages and then finally moving through all her fears, Jeanette created the life she came to create, moved into the work she came to do and now works to help you do the same. Dancing Around the Souls Edge is her story, how she got fully into her Purpose and the surprising source of the answers she was seeking. This is an intriguing adventure story of how Ms. Dames learned to take some risks and trust in the spiritual guidance that was provided to her, which led to her living her dream. The reader will be drawn in and captivated by her close up and personal way of storytelling, in particular how she details her ongoing relationship with the river that she came to love so deeply. You'll want to savor each chapter and will find many ways you'll relate to her story. Dr. Steven Farmer
