

I will take you through the Stars

This is the first book written by The Traveller. It is about her adventures through life. It will make you look deeply within yourself and your own experience of life as you compare yours with hers. It may open your eyes and ears to things you never knew existed in our world, not just the supernatural but also the extent of the utter poverty and deprivation of peoples and races by the oppression of the rich and powerful. With over 70% of our world in utter poverty, starving to death (United Nation figures) and 70% of the world with 1% of the worlds resources it is time for humanity to wake up from greed and complacency. It is time for each and every one of us to make a stand for SHARING to take the place of greed and complacency. This book will bring the reader face to face with themselves. Editor
