

Die Bevölkerung wächst und somit auch die Nachfrage nach Konsumgütern, welche nach dem herkömmlichen Prinzip des „Nehmens-Herstellers-Verbrauchens-Entsorgens“ neue potentielle Müllmengen darstellen. Um zukünftig nicht auf die Deponierung angewiesen zu sein, gilt es den Weg einer Kreislaufwirtschaft einzuschlagen. Eine erfolgreiche Umsetzung erfordert jedoch die Zusammenarbeit aller entlang der gesamten Wertschöpfungskette. Im vorliegenden Buch liegt der Fokus auf der Veränderung des Verbraucherverhaltens auf der Konsumentenebene. Ein Re-Use Park als Ort für Bewusstseinsbildung übernimmt die Funktion, unter aktiver Einbindung der Bevölkerung nachhaltiges Konsumverhalten vorzuleben. Auf Basis eines qualitativen Forschungsprozesses und unter Berücksichtigung politischer Ziele und rechtlicher Rahmenbedingungen auf europäischer und nationaler Ebene wird ein exemplarisches Business Model für einen Re-Use Park in Österreich erstellt. Dieses gilt als erster Schritt für eine erfolgreiche Umsetzung und als Anreiz für weitere Forschungsaktivitäten in diesem zukunftsstrahlenden, bis dato relativ unerforschten Gebiet.
