

# A Comprehensive English Back Word List

Back words are words that when read backwards spell a different word, e.g. golf to flog. Partial back words are words that when read partially backwards spell a different word, e.g. precarious to racer. In the case of partial back word the lengths of both words are not the same. There are less than 300 pairs of full back words however, in terms of partial back word, there are more than 30,000. The 36,000 entries of this book were selected from a database of 290,000 words. Any word contains a back word of more than two letters will be listed. There may be more than one partial back word for an entry. As far as the author knew, no one else has ever explored partial back word in the scale like this book before. Both full and partial English back word could help improve vocabulary learning.
