

Starry Mind: The Life and Times of Vincent van Gogh

Some of the most famous artists of the world never achieved fame, or even recognition, during their lifetimes. They worked in relative obscurity and often in tragic circumstances. And although those artists produced works that now grace the walls of some of the most hallowed museums, they never lived to enjoy it. Vincent Willem van Gogh was such a man.

This biography looks at both the life and times of one of the worlds most known artist, and how his life inspired his greatest masterpieces.
