

What makes a great speech great? The Art of Great Speeches uses insights from classical thinkers to reveal how great orators such as Barack Obama, Martin Luther King, the Kennedys, Al Gore and Hitler have persuaded their audiences so convincingly. Featuring excerpts of 70 of the worlds greatest speeches in history and drama, this fascinating book breaks down the key elements of classical and modern oratory to reveal the rhetorical techniques that make them so memorable. It shows how master speechwriters connect with their audiences, seize a moment, project character, use facts convincingly and destroy their opponents arguments as they try to force the hand of history or create memorable drama. Part history, part defence of oratory, part call for political inspiration, part professional handbook, The Art of Great Speeches does what no other book does – it explains why these speeches are great.
