

Wings of Light: Knowing the Angels Who Guide You

AWARD-WINNING FINALIST in CIPA EVVY Awards in spirituality 2012.

WINGS OF LIGHT unveils ancient mystery school teachings on the four angels who guide us every day. Four living beings of light counsel and guide each person every day. The simple techniques in this book show how to sense an angels presence, hear the angels, and trust your instinctual knowing of just what to do in any situation. Through relevant present-day anecdotes, archetypal parables, and original visualization exercises, we see how to sense and hear our own personal guardian angel, counselor angel, caretaker angel, and intercessor angel. A significant chapter is a technique, directly from the angels, on how to find a lost loved one and secure safety. This visualization technique came to Charol on five different occasions when her miniature schnauzer was lost, from three-months-old to fourteen-years-old. Each time, Charols dog was returned to her quickly and unharmed. This same technique also worked for twelve other people. Kirkus Reviews wrote, There are four categories of angelsguardian, counselor, caretaker and intercessorand each has its role of protection, self-discovery, self-will and connection with the Higher Self. This is a quietly powerful book, emphasizing personal strength and inner knowing rather than fear, and its message of hope and reassurance is a warm, welcome cup of breakfast teasincere, concise and nonjudgmentaleasy-to-follow practices and meditations. A particularly persuasive chapter provides techniques for energetically locating a lost loved one. Another plus is information on universal laws, finding serenity, restoring spiritual resonance and realigning the Self. Helpful, gentle, practical illumination for the spiritual seeker. Six chapters published in Spirit Quest magazine, Denver CO.
