

The Faces of the Moon Mother: An Archetypal Cycle

This beautifully illustrated work demonstrates how conscious attunement with the phases of the moon can harmonize your emotional life. Giving an archetypal understanding of 16 phases of the moon cycle in a vivid, poetic and astrologically accurate way, it shows how identifying with the waxing half of the cycle and denying the waning half contributes to current problems ranging from environmental destruction to mid-life crises and addiction. 80 pages. This book can be used in monthly rituals. It helps readers to attune more consciously to the archetypal patterns that underlie the moon cycles we all share through the changing emotional states of our soul. Drawings, poetry and interpretations for each Face of the Moon Mother enable you to feel the emotional qualities associated with the waxing and waning rhythms of the moon.
